The commission are very good to me and are doing all they can to see that I get permission to again visit France and they are all insistent that I help them out on the financial end and be sure that all is cleaned up satisfactorily. Was asked yesterday if I wanted the commission. Say, that was a most gratifying compliment and I sure would like to take it, but don't want to get held up for a year more over here, so I shall not make any promise till I know what is to be done. "Trust you and John are well, also the baby, and that you are comfortable for the winter. Did you get my checks from Washington and is my insurance paid? Do you need any more money? You know the A.
